Dashboard Recommendations

Suggested Enhancements

- Add KPI cards: transaction count, savings rate, largest expense
- Income vs Expense column chart (monthly)
- Expense-by-category doughnut chart
- Slicers: Date, Category, PayType, Location
- Conditional formatting for large expenses
- Reconciliation status field (Verified / Pending)

Made with GAMMA

Action Plan

01

Reconcile Statements

Match all transactions to bank/UPI/card records

02

Log Expenses

Separate fixed, variable & discretionary costs

03

Set Budgets

Category limits & monthly targets

04

Automate

Power Query + PivotTables for auto-refresh

Consistent data entry is the most critical next step for meaningful trend analysis.Built by Mohd Affan.
